route information practical advice

Check the weather forecast (at all the Information Points and in the Tourist Office or on the electronic notice boards in your resort) so you are aware of the road conditions when you set off. During the French school holidays the «Partir à la bonne heure» (Leave in good time) campaign will be posted up in the Tourist Office and the Information Points from the Thursday. This will recommend certain departure times in the light of the traffic flow anticipated by the Direction Départementale de l'Équipement de la Savoie (the departmental road authority).

- In case of snow: consider clearing the snow from your car throughout the week so it doesn't get too hard. Don't forget to take the snow off the roof of your car because if you brake sharply it could fall onto your windscreen. It is important to have chains (sold in the SHERPA mini-market in Champagny en Vanoise) or snow tires. Chain before your departure and unleash if possible on the areas provided for this purpose.
